

## French Hinged Patio Doors

### ProLine®

Basic Done Beautifully®. It's a shame to think of these patio doors as basic. Our ProLine® windows and doors offer more quality and beauty than most other brands.

So what makes them so affordable? We keep this product offering simple to maximize your value. You can still choose from a variety of standard sizes and three standard exterior colors. And, of course, you'll get solid-wood construction with features like our multi-point locking system and the optional prefinished interior. What's basic about that?

### Benefits

- Energy Efficiency — every ProLine® product with Low-E insulating glass meets [ENERGY STAR®](#) requirements for all 50 states.
- Low Maintenance Exterior — Pella's EnduraClad® exteriors are beautifully durable, resist fading, chalking and corrosion to stay looking great for years to come.
- Convenience — save time and money by choosing our factory-prefinished White interior<sup>1</sup>. This durable interior finish will look beautiful for years to come! Or, select our standard unfinished wood interior that may be painted or stained to match any décor.
- Superior Aesthetics — oak threshold with clear coat finish is not only beautiful, but delivers durability and thermal insulating value.
- Peace-of-Mind — unique multi-point locking system secures the door at the head, jamb and sill. It has earned the industry's highest-recognized security rating.
- Easy Installation — doors are factory-assembled and pre-hung which means they are ready for quick, easy installation. Even the hardware is attached.

### Options

- Exterior Colors — low-maintenance EnduraClad® exterior is available in three [standard colors](#).
- Interior Colors — a prefinished White interior<sup>1</sup> is available.
- Glass — insulating glass is standard. For added energy efficiency or safety, glazing options include argon-filled Low-E insulating glass or tempered glass.
- Hardware Finishes — available in [five decorator finishes](#).
- Screen Doors — for a single door, a hinged screen is available. For a double-wide door, an exterior top-hung sliding screen is available. Screen color matches EnduraClad® exterior color.

## Sliding Patio Doors

### ProLine®

Basic Done Beautifully®. It's a shame to think of these patio doors as basic. Our ProLine® windows and doors offer more quality and beauty than most other brands.

So what makes them so affordable? We keep this product offering simple to maximize your value. You can still choose from a variety of standard sizes and three standard exterior colors. And, of course, you'll get solid-wood construction with features like an oak threshold and the optional prefinished interior. What's basic about that?

### Benefits

- Energy Efficiency — every ProLine® product with Low-E insulating glass meets [ENERGY STAR®](#) requirements for all 50 states.
- Low Maintenance Exterior — Pella's EnduraClad® exteriors are beautifully durable, resist fading, chalking and corrosion to stay looking great for years to come.
- Convenience — save time and money by choosing our factory-prefinished White interior<sup>1</sup>. This durable interior finish will look beautiful for years to come! Or, select our standard unfinished wood interior that may be painted or stained to match any décor.
- Peace-of-Mind — Pella® sliding doors feature an exterior venting panel — as the wind blows the panel against the weatherstripping, it creates a tighter seal.
- Superior Aesthetics — oak threshold with clear coat finish is not only beautiful, but delivers durability and thermal insulating value.
- Easy Installation — doors are factory-assembled and pre-hung which means they are ready for quick, easy installation.

### Options

- Exterior Colors — low-maintenance EnduraClad® exterior is available in three [standard colors](#).
- Interior Colors — a prefinished White interior<sup>1</sup> is available.
- Glass — insulating glass is standard. For added energy efficiency or safety, glazing options include argon-filled Low-E insulating glass or tempered glass.
- Footbolt — optional footbolt holds the door open approximately 3" for ventilation.
- KeyLock — exterior keylock is optional.
- Hardware Finishes — interior finish of handle is available in [five decorator finishes](#).
- Exterior handle matches exterior cladding color.
- Screen — optional interior screen is top-hung so debris can't build up in the track — assuring smooth, worry-free operation. And, an interior screen is protected from the elements.
